What Was It?

Frairpoint, Miss., Aug. 3rd.—One of the strangest cases ever reported occurred here recensly. The son of Mr. G. L. Rutler was very ill. The doctor said he had some disease of the spinal cord, and treated him for two months, but he grew worse all the time, and finally the doctor told Mr. Bufler that he did not know what was the trouble.

The boy would wake up in the night and say that he was dying. He would be nervous and trembling and want to run out of the house, saying he saw ugly things which frightened him.

His father was very much discouraged till one day he saw a new remedy called Dodd's Kidney Pills advertised, and he at once bought some and began to give them to his boy.

boy.

He used altogether eight boxes before he was entirely cured. He has not been troubled since. Mr. Butler says:

"I feel it my duty to tell what Dodd's Kidney Pills have done for my boy. All this remedy needs is a fair chance and it will speak for itself."
